COAST AWNING WALL KITS

FEATURES

- › Each window comprises three components: an outer polyester flap, clear PVC and a fly screen... to let in the breeze!
- › Adaptable to suit rollout awnings with its awning rail positioned at up to 2.7mt (9") in height and projections of up to 2.4mt (8")
- › Flexible installation options (i.e. can be installed using telescopic poles or sail track - a comprehensive installation guide is supplied with each kit)
- › Draught skirt and wheel cover included
- › Each kit has a Pop Top Infill kit to block the gap between your Pop Top roof and our side walls

150-03050	TO SUIT 17' ROLLOUT AWNING
150-03060	TO SUIT 18' ROLLOUT AWNING

SPECIFICATIONS

The walls are constructed of weaved Polyester yarns (0.46mm thick)

Polyester is known for its strength and durability. It is resistant to stretching, shrinking, wrinkles, mildew, scratching and even some chemicals

The windows are made from clear PVC with a 0.27mm thickness - remember, these can be rolled up for ventilation

The side wall and front wall mudflaps are manufactured from a non-fraying, grey PVC with webbing

The draft and wheel covers are made from a light weight grey PVC with webbing

Polyester is easy to wash and dry
