SPECIFICATIONS

Power Consumption: 230-240V~50Hz | 1200W(Microwave)
 Microwave Power Output: 700W
 Operation Frequency: 2450MHz
 Outside Dimensions: 262mm(H)×452mm(W)×330mm(D)
 Oven Cavity Dimensions: 198mm(H)×315mm(W)×297mm(D)
 Oven Capacity: Compact 20Litres
 Net Weight: Approx.10.5 kg

Power Consumption: 230-240V~50Hz | 1400W(Microwave)
 Microwave Power Output: 900W
 Operation Frequency: 2450MHz
 Outside Dimensions: 281mm(H)× 483 mm(W)× 396 mm(D)
 Oven Cavity Dimensions: 217mm(H)× 340 mm(W)× 363 mm(D)
 Oven Capacity: Compact 25Litres
 Net Weight: Approx.13.3 kg

Usage Tips for Your SPHERE Microwave:

Maximize Efficiency:

Use microwave-safe covers to cook faster and save power.

Ventilation:

Leave space around the microwave for airflow.

Even Heating:

Stir food halfway for better results.

Power-Friendly:

Defrost in smaller portions when power is limited.

Easy Cleaning:

Wipe the microwave after each use to keep it running smoothly.
